*The Third Covenant* explores the work of Pierre Teilhard de Chardin, Thomas Berry, and Albert LaChance, revealing through the lens of spirituality, science, and ecology, their understanding of human origin and evolution. Pierre Teilhard de Chardin, an early twentieth century geologist and priest, devoted his life as a scientist, clergyman, and mystic, to reuniting the artificial fracture between science and religion. Thomas Berry, a follower of Teilhard de Chardin and a highly respected cultural historian, furthered this reunification by repositioning the human in the unfolding of an evolving universe, integrated and interdependent with the rest of the life systems of the planet. Albert LaChance, himself a six-year, face-to-face student of Berry, brought this new paradigm into his work as a poet, psychologist, addiction recovery professional, and most importantly, as a mystic and scholar of religion. Along with his daughter, Rebecca LaChance Goodwin, LaChance explores the development of this crucial shift in human understanding and its implications for the future.

Parts I and II explore the elements of polarized thinking that makes us believe that we are separate from each other and the life systems of the planet. Thomas Berry's list of twelve principles for understanding the universe and the role of the human in the universe process describes the creative unfolding of our place in the universe. Part III introduces practical steps for achieving personal, familial, and cultural change. LaChance outlines his Twelve Steps of Ecological Spirituality to help us move from powerlessness and isolation to a state of reawakening to self, to humanity, to all species, to the planet, and to the universe.
