Nature printing, or recreating images from the natural world, is a direct, inexpensive process with possibilities as varied as nature itself. Apply ink or paint to leaves, flowers, herbs, or fruit and print life-sized images onto paper, fabric, and other surfaces to create captivating works of art.

In full-color, simple instructions, NATURE PRINTING covers tools, techniques, and tips for dozens of beautiful projects, including printed fabric for curtains, pillows, linens, quilts, and clothing; stationery, cards, and invitations; nature journals; and more. The book includes instructions for decorative finishes and frames, and it offers nature printing projects for children.
