God's Story Through...God's Light: Designing, Restoring, Protecting and Insulating your church stained glass heritage... Dr. Gary Gray FCBA

Since the 11th century, stained glass has infused the sanctuary with "scripture held up to the light". Through the release of brilliant hues, the power and mystery of God's story has been told to billions throughout the centuries. This feast of light and color continues to elicit spiritual, emotional, and aesthetic reactions, even in the midst of technological sophistication. God's Story Through God's Light guides the modern liturgical committee through the stained glass design process, and suggests the appropriate long-range plan of restoration, protection, and insulation. After inspecting the stained glass of two thousand American churches and synagogues, Dr. Gary M. Gray now shares this vital knowledge with those assigned to create and perpetuate the spiritual message to present and future generations.
