These delicate father son issues, so implicitly captured in his writings, are relevant to a broad spectrum of societal issues beyond the "no son of mine" father of a gay man experience. In fact, the book gets to the real substance of human conflict which is our inability to accept and appreciate difference. The key word here is appreciation. The book offers an opportunity to consider acceptance in a way that extends grace, honor, support and recognition. When we are ungrateful, we are critical, blaming, and we use forms of rejection. Eddies' experience of coming to the acceptance of his son provides hope for healing; a more practical response to conflict that allows dignity, respect and honor which overcomes criticism, blame, bigotry, and ultimately rejection.
