*James F. Shackelford, Young-Hwan Han, Sukyoung Kim, Se-Hun Kwon*

**CRC Materials Science and Engineering Handbook, Fourth Edition** James F. Shackelford, Young-Hwan Han, Sukyoung Kim, Se-Hun Kwon

**CRC Materials Science and Engineering Handbook** provides a convenient, single-volume source for physical and chemical property data on a wide range of engineering materials. As with the first three editions, this **Fourth Edition** contains information verified by major professional associations such as ASM International and the American Ceramic Society (ACerS). Patterned after the iconic *CRC Handbook of Chemistry and Physics*, this edition also:

- Offers a more streamlined presentation organized by categories of traditional and advanced materials
- Converts chemical and physical property data from US customary units to SI units, improving the handbook's usefulness on a global scale
- Expands coverage to include the latest material property data on low-dimensional carbons, two-dimensional (2D) nanomaterials, MAX phases, and amorphous metals

Featuring extensive references to contemporary research literature, **CRC Materials Science and Engineering Handbook, Fourth Edition** is an ideal starting point for scientists and engineers making, selecting, or evaluating materials.

**From reader reviews:**

**Richard Morris:**

Nowadays reading books become more than want or need but also work as a life style. This reading addiction give you lot of advantages. The huge benefits you got of course the knowledge the rest of the information inside the book which improve your knowledge and information. The data you get based on what kind of book you read, if you want get more knowledge just go with education books but if you want sense happy read one having theme for entertaining for example comic or novel. The actual CRC Materials Science and Engineering Handbook, Fourth Edition is kind of e-book which is giving the reader unstable experience.

**Gloria Wells:**

Reading a guide tends to be new life style with this era globalization. With reading through you can get a lot of information that may give you benefit in your life. Having book everyone in this world could share their idea. Publications can also inspire a lot of people. Many author can inspire their reader with their story or maybe their experience. Not only the storyplot that share in the textbooks. But also they write about the ability about something that you need illustration. How to get the good score toefl, or how to teach children, there are many kinds of book that you can get now. The authors on earth always try to improve their expertise in writing, they also doing some exploration before they write on their book. One of them is this CRC Materials Science and Engineering Handbook, Fourth Edition.

**Jason Davis:**

Do you have something that you enjoy such as book? The book lovers usually prefer to choose book like comic, brief story and the biggest one is novel. Now, why not hoping CRC Materials Science and Engineering Handbook, Fourth Edition that give your enjoyment preference will be satisfied by simply reading this book. Reading habit all over the world can be said as the opportunity for people to know world much better then how they react towards the world. It can't be explained constantly that reading addiction only for the geeky man or woman but for all of you who wants to be success person. So , for all you who want to start looking at as your good habit, you can pick CRC Materials Science and Engineering Handbook, Fourth Edition become your own personal starter.

**William Reyes:**

What is your hobby? Have you heard which question when you got students? We believe that that concern was given by teacher to the students. Many kinds of hobby, Every individual has different hobby. And you also know that little person like reading or as reading become their hobby. You need to understand that reading is very important along with book as to be the matter. Book is important thing to add you knowledge, except your own teacher or lecturer. You discover good news or update regarding something by book. Amount types of books that can you choose to adopt be your object. One of them is CRC Materials Science

and Engineering Handbook, Fourth Edition.
