**A comprehensive handbook on law and ethics for both the student and professional complementary medicine practitioner, now in its fourth edition**

Established as the most widely used reference in the field, *Law and Ethics in Complementary Medicine* is a comprehensive handbook for professionals, students, and researchers. Covering a wide range of complementary modalities, it deals with legal and ethical issues in clinical relationships and provides practical guidelines for setting up and running a professional practice. Michael Weir systematically outlines the various aspects of the law which impact on clinical practice, including legal obligations to clients, consumer legislation and complaints processes, and professional boundaries. He explains how to navigate professional indemnity insurance, and the steps you need to take in setting up a professional practice from establishing a business name to dealing with employees. He also outlines the role of codes of ethics, and explores how to deal with tricky ethical issues in daily practice. This fourth edition is fully updated and addresses recent changes in regulation and case law, including the introduction of national boards to cover each registered health profession in Australia. For the first time it also covers aspects of regulation of complementary medicine modalities in New Zealand.
