Reeds 21st Century Ship Management (Reeds Professional) John W Dickie

Ship management has constantly had to evolve to take into account the advancements in technology as well as the demands of the shipping industry. Having internet access and email on board ship has meant that the ship manager has to possess certain sets of skills to function effectively in the post, including computer literacy. The emergence of large multi-national ship management companies has also changed how business is conducted and this in turn means that the ship manager and tiers of management within the organization have had to evolve to cope with the demands of working with a multi-national workforce. Furthermore, since the mid-1980s there has been an ever expanding raft of legislation that is more restrictive for companies to meet, and a shrinking of profit margins has seen a shift in how companies are required to operate to survive.

This book addresses the demands of 21st century ship management with the focus of the book as much about the people who manage ships as about the theory and practice of ship management.

It is most important to arrange yourself to make your knowledge are still change. Let's try to choose proper ways for you.

Sandra Mendoza:

As a college student exactly feel bored to help reading. If their teacher inquired them to go to the library or even make summary for some e-book, they are complained. Just small students that has reading's spirit or real their hobby. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading significantly. Any students feel that looking at is not important, boring as well as can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this era, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Reeds 21st Century Ship Management (Reeds Professional) can make you truly feel more interested to read.
